

Real Time & Date Generator Clock

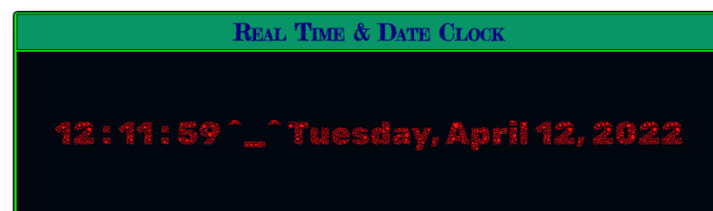

Using JavaScript Date Function & Set Interval

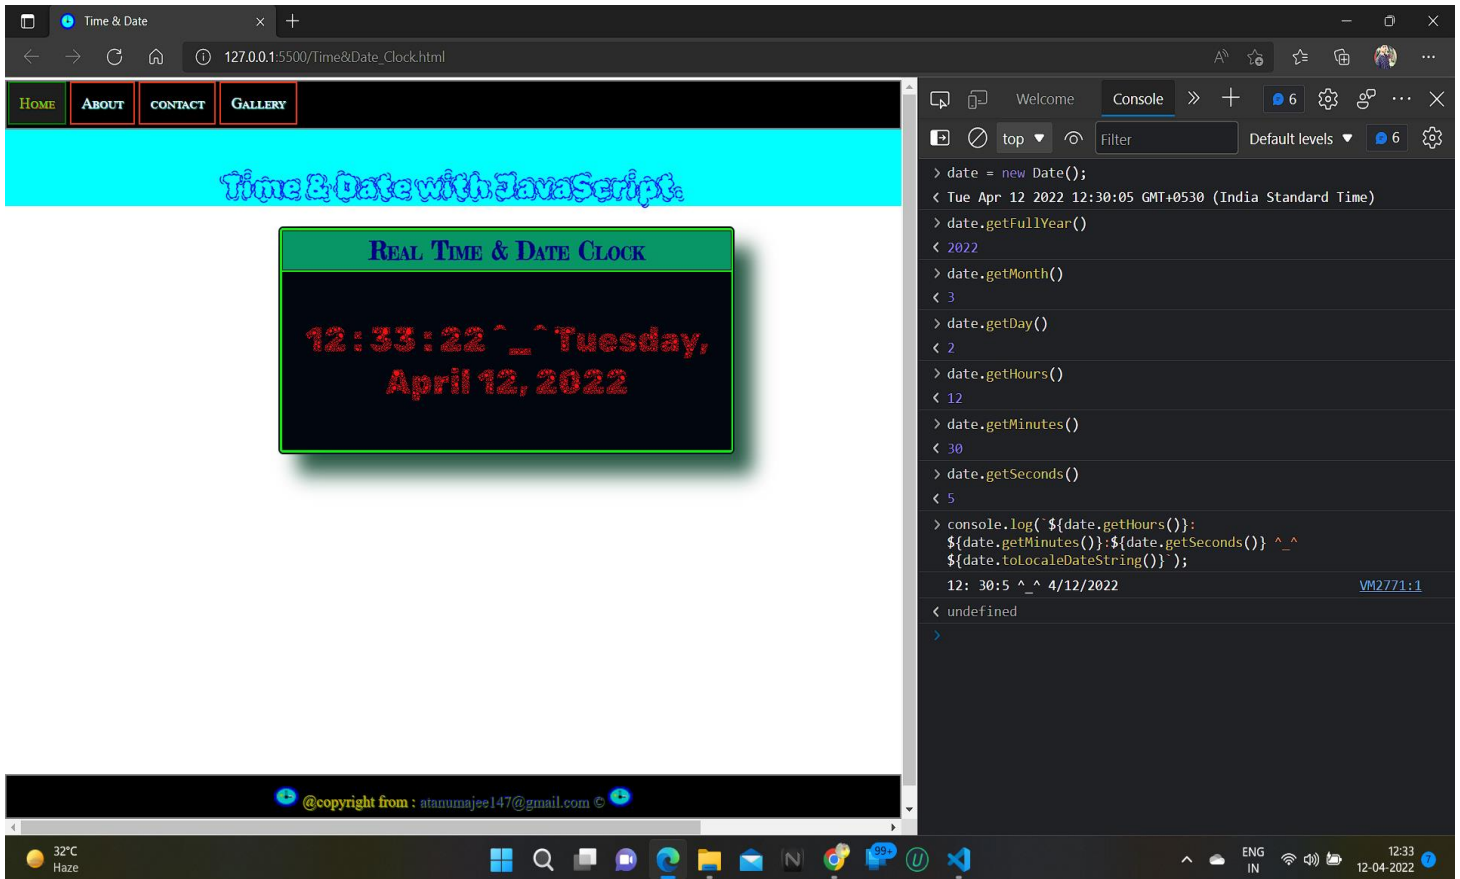

I create this project using HTML, CSS and JavaScript.
This is a very small project, but here only using two functions created this clock,

1. Date Function (Generate the real time)
2. Set Interval (for updating per second)

***Watch the Real Time and Date generator clock**

*Now see how to work the Real Time and Date generator clock...

This project just for practice HTML, CSS and JavaScript languages

Editor: vs code

Thanks for Watching this Project.
